A high-angle photograph of seven students sitting around a white circular table. They are all focused on their work, with some writing in notebooks and others looking at papers. The table is cluttered with various items including notebooks, pens, a small green plant, and a pair of glasses. The students are wearing a variety of colorful clothing, including a purple shirt, a green sweater, a blue shirt, a plaid shirt, an orange sweater, a yellow sweater, and a blue shirt. The background is a plain, light-colored floor.

Context

A study at MSU Main's Princess Lawanen Hall found overcrowding and limited dorm amenities.

Problem Statement

Problem

Students struggle to find available room in dorms due to outdated management, poor transparency, and limited information.

Impact

Students face overcrowding and uncertainty, while dorm owners and the university face inefficiency.

Problem Statement/Industry

Problem Being Solved

Many students at MSU Main Campus had problems in securing safe, affordable, and accessible dormitory accommodations. And issues like overcrowding, lack of proper housing information, and limited transparency about available dorm spaces make it difficult for students to find suitable shelter.

Problem Analysis

Affected Stakeholders

Primarily MSU Main Campus students who need dormitory accommodations, especially incoming and low-income students. They face difficulties due to overcrowded dorms, lack of reliable housing information, and limited amenities.

Impact on Stakeholders

Students experience overcrowding, discomfort, and uncertainty in finding suitable dorms, which can affect their academic focus, well-being, and overall college experience.

Root Causes

Outdated housing management, lack of transparency, and limited information access.

Personal/Team Connect

As a student staying in a dorm, I see the difficulties of finding safe and available room to stay at, so I want to help my fellow students to find rooms faster, easier and more transparent and with the help of technology.

Jobs-to-be-Done

Functional JTBD

As a student - find available dorm rooms near MSU Main Campus. Secure a dorm reservation quickly and reliably.

Emotional JTBD

As a student - feel relieved, informed, and satisfied. They feel secured and safe.

Social JTBD

As a student - build trust with dorm owners and fellow students through smooth communication.

Current Alternatives

Current Alternatives

As a student - word-of-mouth from friends and seniors, asking peers for recommendations. Browsing social media platforms.

Gaps in Current Alternatives

Existing solutions are slow, unreliable, and often provide outdated or incomplete dorm information. Students face uncertainty, wasted time, and difficulty finding safe, affordable, and accessible housing.

Our Solution

Solution

MSU DormConnect Web & Mobile App – a centralized platform listing all available dorm rooms with prices, amenities, and real-time availability.

Core Technologies/ Methodologies

Our MSU DormConnect platform will be build using react (for web) as frontend and React Native or Flutter (for mobile) for user-friendly interfaces.

Solution Design

Our Solution

MSU DormConnect Web & Mobile App – a centralized platform listing all available dorm rooms with prices, amenities, and real-time availability.

Key Features

Our platform provides centralized dorm listings with prices, amenities, and real-time availability, filter and compare options, read verified reviews, book securely, and receive notifications.

Uniqueness

Real-time dorm availability, verified student reviews, centralized listings, and an integrated dorm comparison tool tailored for MSU students.

Solution Format:

A Web and Mobile Application

Core Technologies/ Methodologies:

Our MSU DormConnect platform will be build using react (for web) as frontend and React Native or Flutter (for mobile) for user-friendly interfaces.

Solution Benefits

Functional Benefits

Find and reserve a dorm room near MSU in minutes, compare prices, amenities, and locations instantly, access real-time availability of dorm spaces, reliable communication with dorm owners

Emotional Benefits

Relief from stress of uncertain housing, feeling safe and informed with verified details, satisfaction from a smooth and reliable process, confidence knowing they secured a dorm hassle-free

Social Benefits

Builds trust between students and dorm owners, encourages peer-to-peer feedback and reviews, build stronger student connections, be seen as reliable and informed

Macro Benefits

The app enhances student welfare, eases overcrowding, and saves time and money. It promotes transparency, fair competition among dorms, and encourages more sustainable housing practices.

Macro Analysis

Favourable Trends

AREA	DESCRIPTION
Technology	Growing use of online platforms makes digital dorm-hunting easier, faster, and transparent.
Demographics	Rising student enrollment drives greater demand for safe, affordable, campus-near housing options.

Unfavourable Trends

AREA	DESCRIPTION
Economy	Increasing rental prices and cost of living may limit students’ ability to afford dorms or housings.
Legal	Housing rules and data privacy laws may restrict listings and complicate platform operations.

Competition Analysis

COMPETITOR NAME	TYPE	STRENGTHS	WEAKNESSES
Rentpad	Direct	Establish brand, easy-to-use	General listings, not student focus
AmberStudent	Direct	Technology-driven platform	Impersonal for local students
HousingAnywhere	Direct	flexible, international housing	Subscription requirement, expensive
AirBnB	Indirect	Large platform, secure payment	Expensive for students

Our Product/Service will be better than the competitors' solutions because:

Student-focused platform, affordable and transparent fees, community features, seamless campus integration and direct partnerships with MSU housing management

Venture Viability Assessment

Venture Viability Index
48.88%

Strengths

We deeply understand MSU students' dorm-finding pain points through direct validation, our student-focused, verified listings approach sets us apart from general real estate platforms, our campus-based, peer-to-peer approach leverages student networks and social media where our users already are.

Areas of Improvement

Our ₱350 commission pricing needs real customer testing to confirm sustainability and willingness to pay, we must secure a developer partner or technical co-founder to build a functional prototype quickly, we need to add technical, financial, and operational expertise through co-founders or advisors.

Next Steps

TIMELINE	GOALS	TEAM NEEDED	PHYSICAL RESOURCES NEEDED	FUNDS NEEDED
Months 1-3	Complete functional web development	2	Laptops	₱50,000
Months 4-6	Launch version of MSU DormConnect	3	Cloud Host	₱70,000
Months 7-9	Achieve 100 registered student users	2	Server	₱80,000
Months 10-12	Achieve operational sustainability, Expand	3	Office	₱70,000

Venture Summary

OVERVIEW

MSU DormConnect is a web platform that connects MSU Main Campus students with safe, affordable dormitory accommodations through real-time listings and verified reviews. Our platform bridges the gap between students seeking quality housing and dorm owners, creating a trusted community that enhances student welfare and supports academic success. We are dedicated to create a trusted marketplace that enhances student welfare and enables them to focus on their academic success.

Mission

Our mission is to solve the housing uncertainty faced by MSU Main Campus students by providing a trusted, technology-driven platform that bridges the gap between students seeking quality dormitory accommodations and dorm owners offering safe, affordable spaces, and transparent information.

Social/Economic Relevance

Solving student housing uncertainty is crucial because secure, affordable accommodations are fundamental to educational access and academic success, directly impacting students' ability to focus on their studies, complete their education, and contribute as future professionals to society's economic and social development.

Thank You!

Our mission is to solve the housing uncertainty faced by MSU Main Campus students by providing a trusted, technology-driven platform that bridges the gap between students seeking quality dormitory accommodations and dorm owners offering safe, affordable spaces, and transparent information.
